Welcome to De Nieuwe Poort

Good to have you here. Whether you came in for a coffee, a chat or a delicious lunch, you're always welcome. This is a place to rest and recharge, but also to be inspired and meet people that you normally wouldn't run into. Sounds confusing? We get that, but it's actually pretty simple. Above all, De Nieuwe Poort is a place to meet people, relax and be inspired.

Location: Rotterdam

'You will find peace and reflection here. There's space for lectures and debates and you can meet people that you normally wouldn't cross paths with.'

We work together with social enterprises such as KoeckeBackers, the Bakkerswerkplaats, the 7 Deugden brewery and Heilige Boontjes. Plus we're a social workplace ourselves too. A place where people who have a bit more trouble fitting in at a normal work environment get a leg-up to get to work again. For example, our restaurant is a training kitchen and employs many people with an unusual story.
